

Acrilid Protect Coating

Coloured protective liquid coating (such as **Acrilid Protect Coating**), water repellent and breathable, ideal for indoor and outdoor use. The product is based on latex, designed to finish thermo-acoustic plaster made of *Diathonite*. The special formulation prevents the absorption of rainwater by the masonry and the carbonation of the cement by atmospheric agents. Ideal product for saline areas. Minimum required characteristics: Weathering Test 1680 hours (> 10 years); Water vapour permeability $\mu = 88$; Film forming temperature +5°C (+41°F); Solids content 65%.
