

## *Decork Design*

Breathable and insulating decorative finish (such as **Decork Design**), based on cork and water-based resins for the decoration of floors, walls, ceilings and facades, for indoor and outdoor application. Formulated to have excellent reaction to fire, resistance to atmospheric agents and durability over time, it allows the creation of infinite aesthetic effects, ranging from smooth, dotted, bush-hammered, modern or antiqued finishes. It has excellent adhesion to any type of substrate with the right primer (metal, plaster, cementitious substrates and tiles). Minimum required characteristics: Elasticity 60%; Crack Bridging Ability 2.5 mm; Weathering Test 1680 ore (> 10 anni); Thermal conductivity ( $\lambda$ ) 0.086 W/mK; Water vapour permeability  $\mu=15$ .
