PERFUME SHOP - MARSAL SEEF - DUBAI

Decorkrete was chosen for the floors of a prestigious Perfume Shop in Dubai, thanks to its refined, clean and essential style. The product, highly resistant and durable by virtue of its raw materials, confers to the store an element of warmth and elegance and a genuine modern look.

SUCCESS STORIES

HOTEL ROMANTICO - GABICCE MARE – ITALY

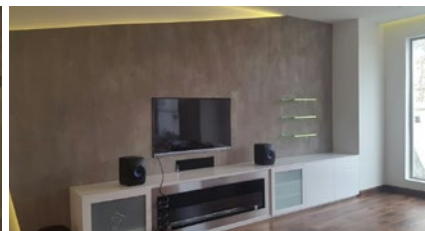

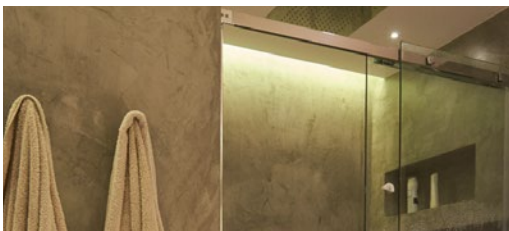

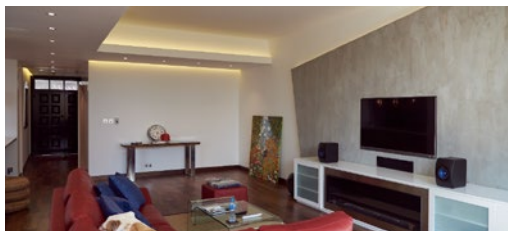

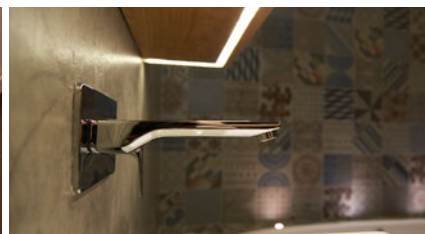

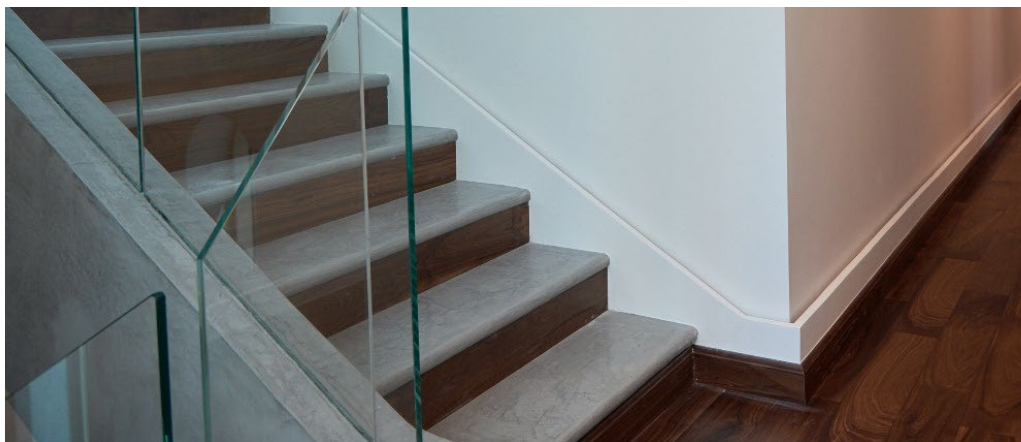

The bathrooms of Hotel Romantico in Gabicce Mare (PU) were renovated by applying Grip Primer and two layers of Vaposhield directly on the tiled surfaces. A double layer of Decorkrete coating was then applied. Next, the surface was sanded to further enhance the desired effect. Aquafloor Eco, a water-based polyurethane protective product, was applied as the final touch when the Decorkrete had dried.

SUCCESS STORIES

VILLA ANGELA - DUBAI

For the renovation of "Villa Angela" in Dubai Marina, the designers and contractor chose the decorative coating Decorkrete to give to the rooms a modern, essential and clean style, as requested by the customer.
