

## *Plasterpaint Colorato*

Coloured liquid water-repellent and breathable coating for outdoor (such as **Plasterpaint Coloured**), formulated with potassium silicate, calcareous sandstone and natural pigments. It is ideal as protective finish for thermal-acoustic plaster made of Diathonite, as it prevents the absorption of meteoric water by the masonry. Minimum required characteristics: Weathering Test 1680 hours (> 10 years); Water vapour permeability coefficient (thickness: 1 mm | 0.04 in)  $\mu=7$ ; Reaction to fire – not flammable; Resistance after 50 freeze-thaw cycles (-15°C/+15°C) – unchanged.
